

RABQSA International Announces its First Certified Training Provider for ISMS

Milwaukee, Sydney and Athens: RABQSA International (RABQSA) has today announced the certification of SAI Global's Information Security Management Systems (ISMS) competency unit. The ISMS competency unit was designed to meet the knowledge requirements of RABQSA's ISMS auditor certification scheme.

ISMS is included in RABQSA's Training Provider Examination Scheme (TPECS), which underpins the examination of knowledge-based competencies specific to the RABQSA competency-based personnel certification schemes.

"We are proud to have SAI Global on board with ISMS as they are a proven partner in the industry" said Michael Carmody, President and Chief Executive Officer of RABQSA International, Inc.

Melissa Mudd, Manager of Sales and Operations, said: "SAI Global is pleased to receive certification of our Information Security Management Systems (ISMS) training course. This achievement, along with our already comprehensive RABQSA certifications, demonstrates our continued commitment to our customers' professional development and ongoing success."

TPECS reflects contemporary learning and assessment practices, surpasses industry expectations, and, above all demonstrates that applicants achieve the level of competence required for RABQSA personnel certification
