

NRBPT and RABQSA International Announce Bi-lateral Agreement

Athens, Korea, Milwaukee, New Delhi, Sydney; The Quality Council of India's National Registration Board for Personnel and Training (NRBPT) and RABQSA International, Inc. (RABQSA) today announced the signing of an International Bi-lateral Agreement that allows for the mutual recognition of certified training courses.

Environment, quality, and occupational health and safety training course certification products have been deemed mutually acceptable for the purpose of personnel certification. Both RABQSA training provider certification schemes (Training Course Certification and TPECS) are included in the Agreement.

The mutual recognition of the graduate's certificate of attainment allows personnel who seek international certification with NRBPT or RABQSA, a broader choice of professional certification products, and a global recognition of their competencies and qualifications.

NRBPT offers registration services for personnel and training courses in line with international requirements. With the growing need for competent personnel and credible training courses in various industry sectors, NRBPT has been rapidly expanding its scope of services to cater to the needs of industry.

"We are very pleased by the opportunity this provides for RABQSA's certified training providers and certified personnel," stated Michael Carmody, RABQSA President and CEO. "We continually look for ways to add tangible value to our certification products", says Carmody.

More information on this recognition can be obtained by contacting RABQSA at info@rabqsa.com or the NRBPT at www.qcin.org/html/nrbpt
