

RABQSA launches Certification for Aged Care Professionals

Milwaukee, Seoul and Sydney; Today, RABQSA International, Inc. is officially launching the Aged Care Professional Certification Scheme.

The scheme is offered to Certified Aged Care Assessors and Professionals working in the residential aged care industry performing consultancy audits prior to Accreditation or review of the facility by the Aged Care Standards and Accreditation Agency (The Agency) Assessors.

The scheme is qualification-based and recognizes a professional's education, work experiences and personal attributes. The Scheme offers scopes of certification for Medication Management, Cultural Care, Specialized Care and Care Assessment & Management. The scopes tie into the initiatives of the aged care industry and allow people with select experiences to showcase their abilities.

Vice President and Executive Director Asia Pacific RABQSA, Mr. Peter Holtmann commented, "The Aged Care Professional Scheme is another example of certification that adds value to industry."

He stressed "This scheme is offered to professionals working in the Aged Care industry to compliment The Agency's Accreditation processes for residential aged care and to provide access to Professionals for aged care facilities seeking assistance with the application, implementation and management of Quality of Care Principles."

For Assessors holding current RABQSA or Agency certification, a transition process is offered to allow a fast and cost-effective option for certification.

Further details on the Aged Care Professional Certification Scheme are available on the RABQSA website at www.rabqsa.com or by contacting the RABQSA Scheme Examiner.
