IMMEDIATE RELEASE

## RABQSA launches the Certified Wind Farms of Australia (CWFA) Environmental Auditor Scope

**Milwaukee, Seoul, Sydney;** RABQSA International, Inc (RABQSA) is officially launching the Certified Wind Farms of Australia (CWFA) Environmental Auditor Scope, developed in liaison with industry and the Clean Energy Council (CEC) of Australia.

Matthew Warren, Chief Executive Officer, Clean Energy Council said "The Clean Energy Council is leading the way in using the RABQSA Competency-based Environmental Auditor Certification Scheme for our first Certified Wind Farms Australia Scope of certification. This program provides an auditable framework for managing the environmental, stakeholder consultation, and amenity aspects of wind farms."

Warren went on to say "The CWFA scope has been added to the RABQSA Competency-based Environmental Auditor scheme to provide confidence to industry that RABQSA certified auditors, working with the CWFA Standards, have demonstrated the appropriate competencies, to ensure that organizations meet the Clean Energy Council Best Practice Guidelines for Implementation of Wind Energy Projects in Australia.

RABQSA Executive Director of Support Services, Julie Mitcheson, highlighted that the CWFA Scope is an example of RABQSA's ability to create value for industry and Australian Wind Farms through the design and development of specialized certification programs.

Further details on the Certified Wind Farms Auditor Certification Scheme are available on the RABQSA website at [www.rabqsa.com](http://www.rabqsa.com) or by contacting the RABQSA Competency-based Environmental Auditor Scheme Examiner at [info@rabqsa.com](mailto:info@rabqsa.com)
